Finding the Bottom Using Weekly TSI

- Identifying Stocks & ETFs that are ready to bottom can be challenging because:
 1. How do you know it's the bottom (No Bottom Fishing)
 2. Don't want to catch a falling knife
 3. Lack of understanding of the technical characteristics of a bottoming stock
 4. Understanding the connection with fundamentals!

- What are the clues I look for?
 1. Fundamentally Sound Stocks or ETFs with a Sound Seasonal Record (Running List)
 2. Momentum coming back into the stock or ETF
 3. Weekly TSI (8,8,3) reaching previous support lows
 4. Positive Divergences – May show up on daily charts
 5. TSI Tick-Ups

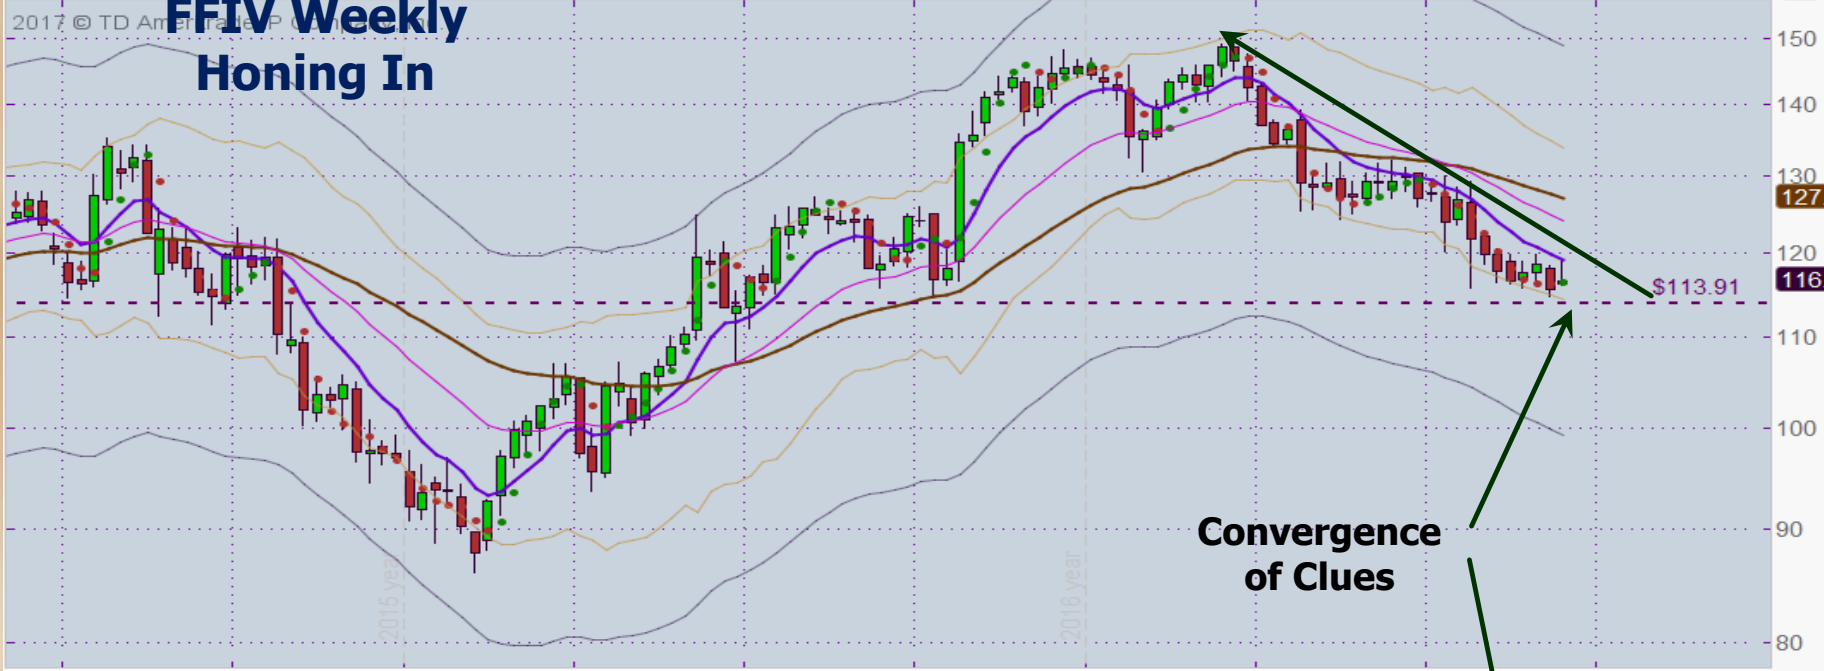

TSI Reaching Previous Weekly Support Lows

Work through the process

Clarify, Simplify & Multiply

This has been the Motto of Active Trend Trading from the beginning!

We continuously work to Clarify & Simplify through refinements to the system to make it objective and easy to both learn and use.

The purpose of all presentations is to provide our fellow Active Trend Trader Members a jump start to accelerate progress up the Learning Curve.

We welcome suggestions on how to improve the learning process!

Trade Wisely & Profitably,
Dennis W. Wilborn
